

Now Then Lovelies

For those who don't know me, my name is Hayley Collin, and for those of you who do, 'Just Normal'.

I am a Second year Education Student who combines with History. So obviously a Froebel Girl.

I have often been involved in events in around campus since my first year and with me leading in to my third year I want to push and keep Froebel spark glittering!

My main point would be the introduction of TUITION FEES we all have heard that the governments are planning to make university debt even bigger by raising the fees to £7K.

General Elections coming up in May and your say counts as there will not be another election Say for another 4 years.

I would make myself involved with this campaign by liaising with the RSU and making Froebel more aware by showing how powerful the student body can be when we all work cohesively. A fine example of this would be when we all came together to save Brenda's and Tracey's.

The lighting around the COURTS (old, garden, new) and the MEDICAL CENTER need to be improved for all and also for general safety and from this a push for SECURITY at the SIDEGATE on a BOP and also to get more CCTV cameras working around Froebel.

The implement of the OUTDOOR LEARNING area by Nikki, to be pushed forward to and expanded to an OUTDOOR STAGE for the dancers and not this but to encourage of the outdoor space we have for all students such as then ALLOTMENT and ORCHED.

From being SECRETARY on the Froebel events committee, I have been liaising with the BAR to promote more events and pushing to get student more involved such as the pajama party and the upcoming St Patrick's celebration. I am also a Flat rep at Templeton and last year took part in the one and only Jazz Hands, which I know will be another great success this year!

I will be here to FIGHT YOUR CORNER and listen to your ideas as I will be a KEY PLAYER as Froebel will be the new social home hub, for both on and off campus students and I want it to remain a vibrant lively community.

Lastly I will integrate Montclare and Froebel to liaise more closely together and have more of an atmosphere and involvement I and spark n the campus. – FLARE all the way. (Froebel Montclare)

But, in general I am a normal northern lass who will liaise strongly with the RSU and college staff to push forward with issues and promote a stronger Froebel college on behalf of all the student body. If you have any questions you can catch me around campus or on Facebook.
