

Manifesto

Hi! My name's Rochelle Harvey, I was this year's Athletics Union president and I want YOU to vote for me as your Vice-President Activities! As everyone knows the RSU is moving over to Froebel this April so this is such a great opportunity for out with the old in with the new!!! We've seen some bloody good events over the past few years at Roey but vote me in and I'll bring NEW ideas and events and make the good ones we have even BETTER!!! I will work closely with Sports, Societies, Volunteering and the other sabbs to make your experience at Roehampton as brilliant as mine was! Roehampton has the second best Students Union in London; let's work on making it number one!

Working with the Sport Roehampton president I want to help IMPROVE the way sports teams are run, funded and make sure they get the RECOGNITION and SUPPORT they deserve! Not only this but making sure that anyone can feel like they can join in. I want to hold a sports day, old fashioned style!! I will PROMOTE HEALTHY LIVING, to all students. I want to bring in a league table for all teams so that they can compete to see who the best team is, but also to put up fixture lists so that anyone can go and support the teams. I really want to push for intramural competitions so that teams can have a go at playing each other at a different sport! I will make sure we raise plenty of money towards events such as the Sport Roehampton Dinner as well as various sports charities, such as right to play! We will make sure that our name gets known!

We have so many great societies but I feel that they don't make themselves known enough! I will RAISE THEIR PUBLICITY! Working with the societies president I want to make sure societies get the chance to raise plenty of money for themselves, around university, using to their full advantage the facilities we have available, make sure they recruit plenty of members during fresher's and again in refreshers fairs. I want to bring in a system in which the societies that really excel get rewarded for their hard work. All societies are open to everyone, so I'll encourage everyone to join up, no matter what the interest, and if there's nothing for you let's look to starting up something new! ENCOURAGE TRAINING so that all societies are fully prepared for what they want to do for the academic year.

Looking at our give it a go scheme I feel that there are some elements that need tweaking, including the volunteering part! This is such a vital thing that we can all do and use it to our advantage, I will help promote this to all students looking to see what they can do, remember it looks great on your cv! I want to bring in a give it a go carnival, this will let students sign up for trips away, try different foods and sign up for volunteering amongst other things! There are so many services around I will make sure we take complete advantage of them.

I want to make sure that all students know that I'm here for them, my door is always open and that if they have any ideas I will work to make them happen!
